ABOUT

I am a young, responsible individual with the ability to work in a team and a strong motivation to integrate into a work environment where I can contribute my knowledge and education.

My main objective is to increase my professional experience in a real-world setting, beyond the academic sphere.

I am enthusiastic about putting into practice everything I have learned and continuing to learn from real-life situations in the workplace.

I am seeking an opportunity to grow professionally and contribute to the development of the company.
